

Project Initialization and Planning Phase

Date	15 March 2024
Team ID	SWTID-2026-8809
Project Name	EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A school or college student new to a topic.	Understand a complex concept in simple words.	Textbooks and notes use difficult language.	I have little background knowledge of the subject.	Confused and overwhelmed.
PS-2	A student with doubts while studying.	Get quick and accurate answers to my questions.	Searching takes a lot of time.	Answers are scattered across many websites.	Frustrated and short of time.
PS-3	A student preparing for an exam.	Check how well I understand a topic.	I cannot find ready quizzes for my topic.	Quizzes are made manually and not for my own text.	Anxious about my exam readiness.
PS-4	A learner revising long chapters.	Revise long passages quickly.	Reading everything takes too much time.	Key points are hidden inside lengthy text.	Stressed and pressed for time.
PS-5	A self-learner exploring a new subject such as SQL.	Follow a clear plan from beginner to advanced level.	I do not know where to start or what to learn next.	Resources are scattered with no structured path.	Lost, but motivated with a clear plan.

Team Work Allocation

S.No	Team Member	Problem Statement Assigned
1	Divya K	PS-1: Simple concept explanation (Explanation module)
2	Veronica	PS-2: Quick question answering (Q&A module)
3	Sangeetha T	PS-3: Quiz generation (Quiz module)
4	Pooja N	PS-4: Passage summarization (Summary module)
5	Monika N	PS-5: Personalized learning path (Learning Path module)
