Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • “I don’t understand this concept.” • “Can you explain it in simple words?” • “I need a quick quiz to check myself.”		THINKS • Searching many websites wastes my time. • Will I be ready for my exam? • I wish I had a clear plan from beginner to advanced.
	MEENA <i>(Student / Self-learner)</i>	
DOES • Searches Google and YouTube for answers • Reads long notes and makes own summaries • Asks friends or teachers when stuck		FEELS • Confused by difficult language • Anxious before exams • Motivated when learning is simple and guided
